

Harbor Hub

Proposal for Harbor Hub

PROPOSAL

Harbor Hub multi-page narrative appendix

Quote #

HH-APPX-007 / Revision 4

Quote date :

April 19, 2026

Valid until :

June 15, 2026

noxe

Prepared for :

Priya Collins

Prepared by :

Marc-Olivier Gagner

Table of contents

Executive summary	3
Investment summary	9
Detailed scope	4-8
Appendix	10-12

01 Executive summary

Harbor Hub wants a proposal that reads cleanly for leadership but still survives direct PDF rendering through the vendored json-render runtime.

3

Appendix pages

Free-form

4

Terms blocks

Single column

6

Bound appendix notes

Repeated

2

Scope sections

Still standard

①

Renderer intent

This suite keeps the output close to what Claude would emit: one envelope, light bindings, catalog-safe nodes, and no chat or AI SDK hop.

- ' The appendix is purposefully broader in tone than the main quote.
- ' Every appendix page is still a raw json-render Page node.
- ' TOC range handling gets exercised for a multi-page appendix cluster.

multi-page

freeform

coverage

HARBOR HUB MULTI-PAGE NARRATIVE APPENDIX

This variant keeps the priced scope intact and pushes extra storytelling into a free-form appendix.

01 Access control

Modernize six priority openings with new controllers, readers, and commissioning.

HARBOR HUB MULTI-PAGE NARRATIVE

APPENDIX

01 Access control

BILL OF MATERIALS This section shows the materials and equipment included in access control.				
QTY	PART#/DESCRIPTION	OEM	UNIT PRICE (\$)	TOTAL (\$)
1	AC-01 32-door Mercury controller panel	Mercury	1,680.00	1,680.00
6	AC-02 Mullion reader with keypad	HID	420.00	2,520.00
6	AC-03 Supervised door contact package	HID	118.00	708.00
6	AC-04 Request-to-exit motion sensor	Bosch	86.00	516.00
SUBTOTAL :				\$5,424.00

HARBOR HUB MULTI-PAGE NARRATIVE APPENDIX

01 Access control

LABOR, AND OTHER SERVICES	
This section shows the other services included in access control.	
INSTALLATION	\$3,600.00
PROGRAMMING	\$1,450.00
COMMISSIONING	\$900.00
SUBTOTAL :	
\$5,950.00	
TOTAL COST :	
\$11,374.00	

ⓘ Amounts indicated exclude taxes - applicable taxes are additional.

HARBOR HUB MULTI-PAGE NARRATIVE APPENDIX

02 Video surveillance

Refresh camera coverage in the dock and corridor zones while keeping pricing summarized.

HARBOR HUB MULTI-PAGE NARRATIVE

APPENDIX

02 Video surveillance

BILL OF MATERIALS			
This section shows the materials and equipment included in video surveillance.			
QTY	PART#	DESCRIPTION	OEM
4	VS-01	Indoor dome camera, 5MP	Axis
1	VS-02	Multi-sensor loading dock camera	Axis
2	VS-03	8-port PoE switch	Cisco
5	VS-04	Video management licenses	Genetec
SUBTOTAL :			\$5,545.00
TOTAL COST :			\$5,545.00

ⓘ Amounts indicated exclude taxes - applicable taxes are additional.

09 Investment summary

The summary page stays intentionally simple so scenario-specific stress content elsewhere is easier to isolate.

Access control scope	\$11,374.00
Video surveillance scope	\$5,545.00
Narrative appendix package	\$3,250.00
Subtotal before taxes	\$20,169.00

Project total

\$20,169.00

 Taxes, final coordination, and approved change requests stay outside these direct renderer stress fixtures.

Commercial note: [the rendering path is the system under test](#), so this summary intentionally keeps the financial story stable across all scenarios.

10 Appendix overview

This appendix is intentionally freer than the core quote pages. It mixes metrics, narrative notes, tables, and legal-style content across several pages.

12

Stakeholders

Across 3 teams

5

Open questions

To close at kickoff

18

Draft openings

Impacted by phasing

Why this matters

Sales-led appendix pages are often where visual regressions hide because they mix many components without a rigid schema-driven template.

THREAD	QUESTION	OWNER
Operations	Which doors need after-hours unlock rules?	Client
Facilities	Which risers are safe to reuse for PoE?	Joint
Security	Where should alarm escalation land after hours?	Noxe

Field notes and assumptions

Goal: let the appendix feel authored rather than templated, while still staying inside the catalog and preserving deterministic rendering.

Rack space	One 12U slot remains available in MDF-1	Network	Security VLAN can absorb 18 new endpoints
Power	UPS-backed power exists for controller cabinets	Access window	Night shifts only during live door cutover

- Some appendix content is intentionally more sales-authored than engineering-authored.
- The table and notes page should still feel balanced when exported directly to PDF.
- This scenario is where layout regressions around long supporting text tend to show up first.
- No chat path or AI SDK call is needed to produce any of these pages.

Commercial notes

The last appendix page leans a bit more contractual to verify that denser, longer-form content still feels deliberate.

1. PLANNED SEQUENCING

Appendix sequencing remains indicative until kickoff workshops confirm access windows, site supervision, and cable reuse assumptions.

2. NARRATIVE CONTENT

Narrative appendix pages may be edited for clarity without changing the structured priced scope, provided totals and service-section data remain consistent.

3. VISUAL SUPPORT

Client-facing diagrams, notes, and roadmap tables can be expanded inside the appendix without requiring a separate rendering pipeline.

4. REVIEW CYCLE

This appendix is intended for review comments, prioritization notes, and client education content before the final commercial issue.
